

Clover Pasture Seed

Clover Pasture Seed - Clover Seed is used in a wide range of applications. Clover Seed is used as a added ingredient to wildlife food plots as well as horse and cattle pastures. Clover Seed varieties are also commonly used in agricultural cover crop applications to sweeten the soil as they produce natural forms of nitrogen. Planting clover seed in pastures can replenish the nitrogen in the soil for other grasses while providing a adequate protein source for all types of animals. Most clover seeds are planted at 10-20 lbs per acre.
